

What to Expect – S1/S2

Each semester contains 10 English class sessions each with a duration of 90 minutes.

- There are two evaluations, one oral and one written
- The orals will take place during the 8th and 9th class sessions
- The written test will take place during the 10th

5 hours of self-study are required each semester:

- These hours can be validated at the [CRL](#)
- There are various activities you can participate in
- You will have time during the semester to do these hours

Some work will be required before each class session.

- Participation and concentration during class sessions is highly appreciated
- Disruptions will not be tolerated
- Class sizes being quite large, unruly and unprepared students will be asked to leave

Things to remember:

- There are only 15 hours of English per semester
- An enormous reduction from previous years
- Make the most of your instructor's time with you
- Very difficult to progress after a certain level if you are not disciplined in your efforts

For more information on English levels, the associated skills and methods of progression, see the Self-Study section of the course.
